## REMARKS

The March 23, 2007 office action indicated that the claims were allowed but that the drawings were objected to. Specifically, the Examiner required labeling Figure 1 as prior art and adding descriptive legends to all the reference numbers in Figures 2-6. The attached replacement sheets comply with the Examiner's requirements. The descriptive legends are taken directly from the specification and do not introduce new matter.

The application is in condition for allowance and prompt action to that end is requested.

Respectfully Submitted,
